Art Unit: 2651

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The following amended phrases represent new matter and must be deleted at which time the prior art rejection will be reinstated:

In claim 1, "wherein the signal processing program information includes one or more executable instructions....executing the one or more executable instructions of the installed....program".

In claim 3, "program information includes one or more executable instructions...executing the one or more executable instructions of the installed...program".

In claim 4, "program information includes one or more executable instructions".

In claim 6, "program information includes one or more executable instructions".

In claim 7, "program information includes one or more executable instructions....executing the one or more executable instructions of the installed....program".

In claim 9, "program information includes one or more executable instructions....executing the one or more executable instructions of the installed signal....program".

See In re Rasmussen, 211 USPQ 323, 326 (CCPA 1981).

Assuming for argument sake that the "executable instructions" were recited in the original disclosure, how do they decode the reproduced signal?

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
